PREFACE

In our ever **changing** world of today remains stagnant and even an ancient science such as astrology must undergo a transformation to keep pace. Every science is enriched by experience and in this regard astrology is no exception. The great sages of yore have always taken into consideration different kinds of experience, and in addition, present day practitioners also enlist the help of modern scientific techniques where necessary, to make **their** predictions.

Today, people approach astrology much more scientifically and when they ask a particular question, they want more specific and precise answers from the **astrologer**. Therefore, today's astrologer has to adopt a scientific approach with respect to the analysis of the available data and also draw upon his experience to make his predictions.

In my earlier book Nakshatra Chintan **Part-I** and **KP = Nirayan + Sayan**, I had discussed KP theory with limited examples. But as stated earlier, in today's changing world I have come across situations where a simple question can have numerous possibilities. For example a **friend's** son wanted to go abroad for higher studies and his father asked me questions regarding where he would get the admission and whether he would get his visa and a bank loan easily. Based on my answers he sent his son abroad for higher studies. Recently he again approached me about his son's prospects of getting the internship, which is a mandatory requirement in his college and I **was able to give him** satisfactory replies.

I have been a **keen** student of astrology since **1979** and in my books so far **I have** shared my experiences in this field. Whenever I have felt the need to make some **modifications** or add further details to the previous **publications** in order to benefit the students and readers of astrology, I have come up with a new book. This **book** is a much more detailed one, both in terms of the topic and in its analytical charts, **which** are based both on theory as well as my own experience in the field. In this endeavor I have ensured that I remain unbiased by any one system.

- This book covers all the important topics of a man's life from the time of birth rectification to the mode of death. I have discussed various possibilities and have also provided various chart to support my discussion.

This book is not exhaustive of the KP system. In the future, I hope to dwell on the topics that I haven't dealt with so far with more details and **will** share more **experiences** with you.

I would like to express my sincere gratitude to Mr. **Vipul B. Achary** a for encouraging me to bring out a book of this kind, which is topic specific and covers various dimensions. There is ample scope for further research work. Mr. Vipul Acharya is himself an enthusiastic student of astrology and has gone to great lengths to compile **data** and has persuaded me for long to write this book for the benefit of the students. His help in the various stages of this book have been indispensable and is indeed greatly appreciated. I pray to God to shower him and his family with great prosperity and success always.

I am grateful to Mr. Acharya's family, Mrs. Gira V. Acharya **and Kum.** Devashree and Master **Tirth** for extending their full support while the book was being written. I am also thankful to my Son Chintan and my wife Mrs. **Jayshree** S. Joshi for her invaluable support, for all her sacrifices **and** for always remaining at my **side** like a guardian angel and for being a real source of inspiration.

I am also grateful to Mr. **Kamla** P. Vaidya and his family members to extended supports and Mr. **Vimal V. Patel** for graphics & page setting of my computerized work.

I trust and fervently hope that students in the present era and times to come would benefit by this book.

Different methods for Rectification of Birth Time :

1. **Adhan Kundli** (Pre Natal Epoch)
2. Primary Direction
3. Events happened in life
4. Elements, Nakshtra at the time of birth
5. Ruling Planet

1 to 4 are based on mathematical calculations.

In KP we know that the cusp sub lord is a decisive factor in a chart and it makes distinctions in the twins horoscope or those who are born in the same locality within the difference of two to three minutes. The error in minutes in the birth time makes the chart wrong as well as judgment.

The minimum area of the sub is 40 minutes of Sun and maximum area of the sub is 2d 13m 20s of Venus. If we consider the average movement 1 degree per 4 minutes than in 2 to 3 minutes the difference of the birth time gives different sub lords of the cusp.

So first of all we will try to find out the chances of such types of errors.

1. If the calculation of the casting of the horoscope is wrong
2. If the table of houses used other **than** the placidus semi arc and up **to** the minutes
3. If different **Aynamsa** is used other **than** KP Aynamsa
4. An error in noted birth time

From the above first three errors one will be able to rectify the error by applying the correct calculation method, proper table of houses and KP Aynamsa up to seconds.

However, in the fourth situation rectification is required to **find out** the correct birth time.

Now we will try to judge each type of error may be there in the given birth time. Here **we have to** use some practical approach.

1. Now a day almost every one knows the importance of noting the correct birth time, even in villages. The chances of error in birth **time** may be 5 to 10 minutes plus or minus.
2. The birth data particularly more than 50, 60 years old or birth in villages or in semi urban area, have chances of 15 to 30 minutes error plus or minus.
3. When the data is provided with time around particular hours like around 7 a.m. In such case possibility of the difference is 15 minutes plus or minus.
4. When the data is provided **with** the time around the Sun set or sun rise or noon, than in such cases one can expect the difference of 20 to 25 minutes plus or minus.
5. When the data is provided like birth time between 6 to 8 a.m. but the correct **time** is not known.
6. When the data **i** s provided like 7.3 0 but it **i** s not known whether it **is a.m. or p.m.**
7. **When** the data **i** s provided with **the time** but don't know whether it is a wartime or standard **time** or summertime.

In all above-mentioned situation Ruling Planets (RP) are to be used with different criteria.

Every degree of the zodiac is ruled by a minimum of three planets 1) Sign Lord 2) Star Lord and 3) Sub Lord. Further division like Sub Sub and Sub Sub Sub can be adjusted after fixing the above three planets.

First of all find out in which category the birth data falls from the above list. We have to keep in **mind** that there are two types of Sandhies.

1) Sign Sandhi and 2) Star Sandhi

First calculate the Asc on the base of the given **data** :

- Rashi sandhi
- Nakshatra Sandhi
- Both

For	Exp.	Arise 29 D	Cancer 29 D
		Rashi Sandhi	Rashi Sandhi
		No Nakshatra Sandhi	Nakshatra Sandhi

Leo 13 D - No Rashi Sandhi

But Nakshatra Sandhi will take place in near future

Always work out the Asc according to the time given.

1. When the difference expected as per the above category is around 5 to 10 minutes plus or minus. If the birth Asc is not in Sandhi either by Sign or Star than the importance has to be given to select the Sub, Sub Sub and Sub Sub Sub lord from the Ruling Planets. If the birth Asc is in Star Sandhi than first adjust the Star lord and then adjust Sub, Sub Sub lord etc. If the birth Asc is in Sign Sandhi than first adjust the sign **lord** according to the star lord in that sign **and** then adjust the sub etc from the Ruling Planets.
2. When the difference is expected to be 15 to 30 minutes plus **or** minus, in such case first adjust the star lord from **the** RP. If the Asc sign is not in Sandhi than adjust the sub etc. If the asc sign gets change during that period, then first adjust the Asc sign and then star lord according to the RP.
3. When time is given between 5 to 7 a.m. in such case work out the Asc for the 5 a.m. and also the asc for the 7 a.m. and adjust Sign, Star, Sub and Sub Sub lord from the RP with in these two Asc boundaries.
4. When the time is given like 8.30 but not mentioned whether it is a.m. or p.m. in such case work out the Asc for both the time 8.30 a.m. and p.m. and compare their Rulings with the RP and select correct Asc accordingly.
5. When the time is given without mentioning summer or war time, in such case work out the Asc for the normal given time and **adjusted** time and compare their Rulings with the RP, first adjust the Asc lord then Star lord and further.

So from the above different categories one **will** be able to adjust the different type of time problems.

All above cases are such where **some** time clue **is** given by the native. Now we will discuss another type of problem

We all know that day changes from Sun rise to Sun rise and date changes at mid night. If the birth is after mid night and before sun rise and suppose they don't mention the actual birth day and birth date then it is a problem for astrologer **to** judge which one is correct.

For example suppose a native is born on **24** April 1968 at 2.30 a.m. in Mumbai.

In such a case there are following possibilities

1. 23/24 April 1968 at 2.30 a.m. Mumbai
2. 24/25 April 1968 at 2.30 a.m. Mumbai

In such cases work out the Asc and Moon positions for both the days and time and compare with the RP as follow. If on both the days Moon's Star lord also remain the same then give importance to Moon's sub lord **on both** the days and compare **with the** RP.

After that give importance to the birth day from the **RP** and **with** the help of these two adjustments one can select the correct birth data.

Something about the RP (Ruling Planet):

RP are in the following order.

1. The Asc **Star** Lord
2. **The** Asc Sign Lord
3. **Moon** Star Lord
4. **Moon** Sign Lord
5. **Day** Lord

If Rahu or Ketu represents any RP by the sign or the aspect than consider Rahu or Ketu as a representative of that planet but **don't** **re**ject the planet only give the preference **to** Rahu or Ketu.

Consider the following planets if

1. **A planet aspect to the Asc Star Lord**
2. **A planet aspect to the Asc Sign Lord**
3. **A planet in the Asc or aspect to the asc**

Now consider the following instructions.

1. If a RP is in the **Star** of the other RP then give more importance to **that** first planet.
 2. Don't **reject** any planet even though it is in retrograde planet star or in the sub or itself is a retrograde planet.
 3. Lastly consider the planet which are **aspecting Moon Star Lord, Moon Sign Lord and Day Lord.**
- So in the above order consider the RP.

Once the rectification is done correctly, in future when ever we come across the same chart, the RP of that time tally with one of the following conditions.

1. The birth Asc rulers according to **RP**
2. The birth RP **and** the judgment RP (current RP) remain the same
3. The present Dasha, sub sub period should match with the RP **or** in the star's of the RP in the birth chart
4. The **significators** of the query houses are the same just **like RP.**

So always keep in your mind what you want to rectify **and** only **then take the** help of divine Ruling Planets (RP).

- First right is always given **to Rahu** or Ketu
- 1.2.07 **Rahu** in Aquarius **and as** such represent Saturn

Now on 01.02.2007 @ 19.01 p.m. IST at Khar (19 N 05, 72 E 51)

Asc Star Lord :	Cancer 25 52' 58" - Ashlesha - Mercury
L : Asc Sign Lord :	Cancer - -Moon
S : Star Lord of Moon :	Moon in Cancer - Pushya - Saturn
R : Rashi Lord of Moon !	Moon in Cancer - Rashi Lord- Moon
D : Day Lord :	Thursday - Jupiter

Moon is important today because it is appearing twice in RP as Asc sign Lord, Moon Sign Lord also in Pushya Nakshtra which lord is Saturn

Birth Asc Libra 6 21 11' 46"
Libra 20 New Nakshtra - **Vishakha** is started - whose **star lord** is- Jupiter
Before **that** Rahu Nakshtra was running
So it is Nakshatra sandhi Point.

Saturn is Retrograde today (**01.02.2007**)

Rahu in Aquarius Saturn Sign Representing Saturn But because Saturn is Retrograde became weak even though it is situated in Asc itself.

Daylord 01.02.07 Thursday Jupiter

Today **01.02.07** Jupiter in Scorpio, aspecting Asc Cancer, Asc Lord Moon (also in Cancer),

As Jupiter is day lord (One of the RP) plus aspecting Asc & Asc lord **it** is most important planet for today's birth time rectification

BirthAsc Libra 6 21 11' 46"

Venus Jupiter Jupiter-Sign Lord, Star Lord, Sub Star Lord

There for Jupiter Nakshtra must be there at the time of Birth and **not** Rahu Nakshtra (Ending)

Rahu Nakshtra Ending **will be** Mars which **is not** in today's RP

Now we will go for Sub Lord **Determination** :

Our BirthAsc Libra 6 21 11' 46"

Venus Jupiter Jupiter

Today Saturn is Retrograde and Saturn **is** Represented by Rahu (Rahu in Aquarius). Because Saturn itself is retrograde this possibilities is cancelled.

Out of Five RP

- o Mercury even though it is Asc Star Lord but not figure **in** the picture as cancelled.
- o Moon Star Lord is Saturn, which is Retrograde and as **such** Moon is also cancelled
- o Again Saturn itself is Retrograde cancelled
- o Only Jupiter is important as it is appearing as RP plus aspecting Asc & **Asc** Lord Moon.
- o Jupiter is the only possibility.

So Jupiter Sub **Lord** is also confirmed and correct.

From Libra 20 D **00' 00"**, Jupiter sub area will start and will end at Libra 21 D **46' 40"**

• Sub Sub Calculation :

o	Birth Asc	Libra 6	21	11'	46"

Ju	Sa	Me	Ke	Ve	Su	Mo	Ma	Ra
16	19	17	07	20	06	10	07	18
16	35	52	59	79	85	95	102	120

So Sun Sub Sub is one of the possibilities

- Now today (01.02.207) **Sun** is not appearing in **LSRD** /RP.
- But today Sun is in Capricorn i.e. in Saturn sign, which is also a **RP (weak)** and also aspecting Asc plus Asc Lord Moon + Saturn (RP)
- But as stated earlier Saturn is retrograde and is weak, represented by Rahu so Sun can not be Sub Sub Lord but it will be Moon as **Sub Sub Lord**.
- Because Moon is represented twice in Ruling Planet (RP) plus deposited in Asc and also in aspect of the two RP Jupiter and Saturn. So even though it is deposited in Retrograde star Saturn **we have** to consider Moon as Sub Sub Lord.
- Moon should be Sub **Sub** Lord of **the** Asc.
- Rahu represent Saturn (RP) (as well as deposited in Asc plus conjunct with Moon in Asc and also in aspect with the Jupiter) and also in conjunction with another RP Mercury. So it becomes **Sub Sub Sub Lord**.

Now we will find Moon Area (SSL):

$$\begin{array}{r}
 120 \qquad \qquad \qquad 1 \text{ D } 46' 40'' \\
 85 \qquad \qquad \qquad \qquad ? \\
 \hline
 85 \quad \times \quad 1 \text{ D } 46' 40'' = 1 \text{ D } 15' 33'' \\
 120
 \end{array}$$

So Moon Sub Sub Area will start from

Plus		01	D	15' 33"	
Moon		21	D	15' 33"	Starting
		21	D	24' 27"	Ending

Therefore Asc must be in between Libra 6 S 21 D 15' 33" to 6 s 21 D 24' 27"

In future when you cross check the corrected Birth Time out of one from the following Four must tally :

1. Venus, Jupiter, Jupiter, Moon Must be connected with LSRD / RP
2. Dasha, Bhukti, Anter Dasha
3. Birth Ruling Planet and Particular Day /Time (when you once again wants to cross check) should tally
4. Question should be connected with that particular house, which represent the question.

If any one out of these four is tally then we can say that the Rectified Birth Time is correct.

L : Asc Sign Lord : Cancer - - Moon

S : Star Lord of Moon : Moon in Libra - Chitra - Mars

R : Rashi Lord of Moon Moon in Libra - Rashi Lord- Venus

D : Day Lord : Thursday - Jupiter

As per Birth Chart :

Asc Cancer 25 d 05' 06"

Moon	Mercury	Rahu	Mercury
Sign Lord	NL	SL	SSL

1. As per our Birth Asc, Mercury is Birth Asc **Star** Lord and while checking 8 Feb 07 RP, Mercury is **also** Asc Star Lord and as such Birth Asc Star Lord should be Mercury.
2. As per our Birth Chart Asc, **Rahu** is Birth Asc Sub Lord.

3. Rahu and Venus **are** in Aquarius and as **such** Rahu will Represent Venus. Venus is also Moon Sign Lord and as **such** one of the Ruling Planet.
4. So that possibility of Rahu as Sub **Lord** is very high.
5. Rahu Sub Area in Cancer Sign, Mercury Star is : Cancer 24 d 06' 40" to Cancer 26 d 06' 40"
6. Now as per Birth **Chart** only Mercury (NL), Rahu (SL) and Mercury (SSL) are there.
7. But Mars or Jupiter is not present even though they came as a Ruling Planet.
8. 8 Feb 07 order is given is descending order.
9. We have taken Mercury, Moon and Venus only and Mars and Jupiter is not considered.
10. But Mars is more powerful then Jupiter today (08.02.07) because Mars is Moon's Star Lord.
11. Mars is also aspect **Asc** by it's 8th aspect.
12. Mars is also in Venus Star, which is also a **RP** of 8th Feb 2007.
13. So Mars should **be** the Sub Sub Lord **of** the Native.
14. Now we will calculate for Cancer Sign, Mercury Star, Rahu Sub Star, **Mars Sub Sub Star**
15. Rahu Sub area is of 2 d.
16. So we will Calculate from Rahu Sub Star to Mars Sub Sub Star which is **113** years

Ra	Ju	Sa	Me	Ke	Ve	Su	Mo	Ma

17. Now in Cancer Sign, in Mercury Star, in Rahu Sub Star and Mars Sub Sub Star area is

- Cancer 25 d 59' 40" to Cancer 26 d 06' 40"
- Moon Mercury Rahu Mars
- Sign Lord NL SL SSL

18. Now we will check for Jupiter and also will try to consider the same because Jupiter is Aspecting Asc by its 9th aspect.

19. Now in Cancer Sign, in Mercury Star, in Rahu Sub Star, Mars Sub Sub Star and Jupiter Sub Sub Sub Star area is

Now we will calculate for Rahu SL, Mars SSL and Jupiter SSSL:

Ma	Ra	Ju
07	18	16
07	25	41

120 Years 7' Mars Dasha years (Mars Sub Sub Area)
 25 Years ? Mars to Jupiter total Dasha Year in Rahu Sub
 = 00d **or** 27"

Therefore, in Cancer Sign, Mercury NL, Rahu SL, Mars SSL are as we have calculated earlier is

Cancer 25 d 59' 40" Mars **SSL** Area Start
 + 00 OP 27" Mars SSL & Jupiter SSSL
 Area start

Asc	3s	26 d	01'	07"	Jupiter SSSL start in Mars Sub Sub Lord
-----	----	------	-----	-----	---

Now, in Cancer Sign, Mercury NL, Rahu SL, Mars SSL and Jupiter SSSL we will calculate :

120	Years	7'	Mars	Sub	Sub	in	Rahu	Sub
16	Years	?	Jupiter	SSSL	Area			

= 00 d 00' 56"

Therefore, in Cancer Sign, Mercury NL, Rahu SL, Mars SSL, Jupiter SSSL are as we have calculated earlier is

Matching of Charts

Marriage institution is being established by the society to maintained life on the earth and cordial relations among people by forming some rules for the family life. Every society has it's own rules for the normal age of **marriage** and number of marriages allowed. But most of the marriages today are based on reasons such as financial backing, backing from the partners family, for career or social standing or even to get settled abroad. One might marry another partner for fame etc. Now a days there is a new concept developed in which couple decide **not** to have children,

The 1st house represent the native, 7* house represent the partner and same partner is bound to be a family member which is in the 2nd house and permanent tie relationship shows by the 11 * house.

Before proceeding for the matching of the horoscope, one should consider the following points in an individual chart.

1. Longevity
2. Health Physical and Mental both
3. Promise of marriage life
4. Status of marriage life
5. Promise of the child
6. Financial aspect
7. Dasha and progression after marriage

1. Longevity:

1, 3 and 8* house sub lord, Saturn and the rising planet, Sun and Moon should not be strong significators of Badhaka / Maraka houses and less connection with 6, 8 and 12* houses and their representatives.

2. Health:

- a) Physical Health : 1st house, Sun, Moon the rising planets in the Asc or aspect to the Asc should not be connected with the 6, 8, 12* houses or it's significators or 6, 8, 12 houses **significators** should **not** signify the 1st house.
- b) Mental Health : 1st, 3rd and 9* house sub lord, Moon, Mercury and the rising planet, and Moon's 1st aspect after the birth play an important role in determining the mental condition.

3. **Promise of Marriage Life:**

The 7th house sub lord shows the promise if it is connected with **2, 7, 11 and also** with Venus.

4. **Status of the marriage life:**

- a) If the 7th house sub lord afflicted, duality, barren sign, significator of negative houses
- b) More than one marriage indication due to duality and promise through 2nd house then question arise of a second marriage due to the death of the partner **or** by the divorce
- c) **Pl**anets in the cusp of the 7th house
- d) The Venus Karaka also play the important role From the above radical factors, one can judge the status of the marriage life like harmony, disturbance, separation, early death of the partner, divorce, remarriage **or** to live alone.

5. **Promise of the Child:**

The 5th, 11th and 2nd house sub lord and Jupiter's significance with positive houses, effect of the fertile planets and the fertile sign

6. **Financial :**

In today's materialistic world money become the main factor in every field so one should judge that native is able to meet the requirement of the spouse and the family.

7. **Dasha**

Dasha and the following dasha for nearly 15 to 20 years should be connected **with** the marriage houses after the marriage.

After considering the above factors in both the charts one should **go for** the match.

In matching, **longevity** and promise of the marriage life with the status of the **marriage life** play important role. Without going in much detail, one can make different categories according to the society and age factor. For example : In the female chart if you find a medium longevity with more than one marriage condition, in such condition one can select the chart of **the male** in whose chart **duality** by divorce.

Suppose both the charts indicates short longevity then the marriage is not advisable because children becomes orphans in such a case.

So such type of different categories you can classify.
For matching factors **one** can proceed as under.

1. The ailing planets of both the charts should be significators of the 2nd, 5*, 11th and 7* in each other's chart.
2. 7* house sub Jord of the both the charts should be signicator of **the 2nd, 5th, 7th and 11th house.**
3. The running Dasha and following Dashas of the both the charts should be significators of 2nd, 5*, 7* and 11th
4. Tropical aspects of the planets, the Asc and M.C. should match with each other. Particularly superior planets of the one chart should not be afflicted to the inferior planets or points in the other chart.

After considering the above factors there is no need to see or to weigh the 36 points, Mars Dosa or one should not go to match Mars Dosa **with** Rahu or Saturn.

In the chart if you find purpose other then the real marriage life, one can expect a problem in marriage life. When one of the charts period starts negative and if the chart does not show any kind of separation then one person is **suffering** due to the partner.

First check the longevity of the native and **only** then check for the marriage.

Remedy :

Astrology is based on the reincarnation of the birth and in this theory it believes the good or bad results of our past deeds and result of it we get either in this birth or in the future birth. Astrology shows results in many ways but to understand we can classify in to the following categories.

1. Objective
2. Subjective

In the objective results the native passes through such results, where the society, the family members and other members know it.

In the subjective results, the native passes through such results, where rarely any one knows the result except the native.

Human being make the efforts to achieve some goal in their life. Either it may be a materialistic goal or it may be a spiritualistic goal. Ultimately the efforts give rise to evolution of the soul and **that** is the purpose of the creator.

The creator has given intelligence, thinking power, freedom to act, mind to realise the feelings, the mental and the physical organs to use in the proper direction in most situation. So all these factors and freedom to act, bind us to get the results accordingly. Either they may be good or bad that will depend upon our purpose.

Human beings have formed some rules and regulations to run the society smoothly. In some action the purpose may be good, but according to the society's rules and laws the purpose is not considered, while the natural law always act on the basis of "Bhavana" of the human being during the action. Some time we see that some persons escape from the society's law but in the nature's justice it is not so and one is bound is to get the result during the present birth or in the future births.

There are seven types of bodies, in the process of evolution of the soul. The physical, the ethetic, the astral, the mental, the spiritual, the cosmic and **the** nirvanic. It is very difficult to know that the native is passing through which body internally, without the intuition or sixth sense or divine power.

The knowledge of astrology has given some hint, about it,. Astrology gives guidance, particularly where the native has positive or negative points in regards to all the aspect of the life, how to make the efforts, in which directions so the native can get relief through this guidance.

The 12 houses shows the circumstances, the positive and the negative results for all the departments of the life. While the planets are bound to give the results according to the sign, aspect, and the constellations forthat house matters for which the planets become the significator.

Many people have the impression that with the help of astrology one can change the life pattern as they wish, and with this expectation they contact the astrologer for some remedy. **But** one

should understand that there are three types of Karma. Dhruda Karma, Dhruda Adhruda Karma, and Adhruda Karma. In Dhruda Karma there is no escapism from the results whether one can perform any remedy or not.

In **the** other two types of Karma, the remedy can give some relief, if it is mentioned in the chart. The chart indicates whether the native will get the effect of the remedy or not, and also it indicates the remedy **for**the time being or for permanent in the nature.

There are some remedial measures, which can help if the remedy is promised in the native's chart. And if it is not mentioned in the chart, whichever remedy one applies it will not work. Nature gives the indication from the chart only that one will **get** the relief or not through the remedial measures. It is the astrologer's duty to check this conditions and suggest the remedy accordingly.

Now a days in all the news papers most of the advertisements published with 100% solutions and guarantee of all the types of problem through astrology, which is totally wrong. It creates a wrong impression in the mind of public and it is a disgrace not only to the astrologers but also **to** the divine science.

Following types of remedies are generally applied.

1. Approach according to house reflections for a particular matter
2. Gems
3. Mantra, **Tantra**, Yantra
- 4.. Rudraksha
5. Medicine, Naturopathy, Healings
6. Vastu
7. Muhurat
8. Radiation

One knows that, one is not able to change the birth data, the motion of the planets, the situation of the planetary signs, aspects and constellations positions, because one can not control the celestial bodies. The life matters reflects through the houses and these houses only shows plus or minus in each and every **matter.**" So if one follows according **to** the house conditions it will **be batter to get** the relief.

Suppose, **in** the chart the education shows trend of technology and parents insist for Medicine or for Management due to their position. In such a case the child will not shine in the other field due to

native's aptitude, likes and dislikes. Suppose in the chart one finds the 4* house is afflicted then the native will develop in the other place according to the chart. Suppose in the chart native's development shows dependant on some one else, then in such a case one can not advise for independent adventure.

Suppose in the chart. 1st, 3rd and 9* house development does not show as required and parents realised through the astrologer, one can take the proper care from the childhood with the help of medicine, psychiatrist.

In some cases, natives development shows service than business, then one should go according to their situation for better results. In this way one can use the houses and their reflections. The other remedies improve mental power, increase the positive vibrations, create new visions to see the situations, and all the changes the concept towards the life. One can react better in a bad phase with the help of all these remedies.

In some cases remedy is required for **life time** and in some cases it is required for a particular dasha sub period. Some time it is required for a particular transit only.

In Hindu astrology results are activated by Saturn, Rahu, Ketu and Jupiter. If the result is activated by Saturn, better to follow the results through house patterns with the patience and daily perform the family devata's pooja.

If the result is activated by Jupiter, then it is better to follow the religion, **manta** for specific **result**, radiations, gems, rudraksha, medicine, naturopathy, healings, muhurat, vastu **and** yantra etc.

If the result is activated by Rahu or Ketu then apply the remedy of Tantra, Yantra and Vastu Dosha **Pooja to get** the relief.

So which type of the remedy will be useful to the native one can find out from the chart, but at the same time one should follow 11th house sub lord. Whether it shows success. For the Mantra, Tantra, one should follow the 5* house sub lord to get the evolution of the soul and also to get the mental relief in a difficult time. It is not necessary that the 5* house sub lord will give a materialistic results, it is only for spiritual development.

Before applying a particular planet's remedy one should be aware that not a single planet is totally beneficial or totally malefic in the chart, it depend upon the matter. Same planet is good for a particular matter and the same planet is negative for another matter for the same person.

So here matter becomes the priority for the native, what he likes to achieve by applying the particular planet's remedy.

Suppose Jupiter is significator of 6* house then for health it may effect negative and for the career it may effect positive or for marriage it may effect negative. So in such a condition the astrologer should give a clear idea about it before suggesting remedy, any remedy changes the elements balancing in all the levels accordingly.

Classification for the **remedy**:

1. **Life** time remedy
2. For specific period

According to Dasha, sub period or due to transit.

Without the blessing of the divine power or god or nature or the creator one can not come out successfully in a remedy. The following conditions should be fulfilled in the chart.

1. For **Life Time remedy**:

The Asc and Moon should be under the influence of Jupiter and the lord of Fortuna house.

2. For the specific period **remedy**:

The Asc or Moon or the Dasha lord or sub period ruler should be in the influence of Jupiter or the lord of the Fortuna House.

So before suggesting a remedy, an astrologer's prime duty is to fulfil the above conditions to get the desired results.

From the chart one can classify the planets in the two catagories.

1. The planet is weak
2. The planet is afflicted

The planet is considered to be **weak** by it's sign, it's constellations and it's house position and also by it's strength in varga charts and in the **shada balas**.

The planet is afflicted in a chart by the aspects from the natural malefic planets or the lord of negative houses of the chart.

If the planet itself is weak, then increase the strength of the planet itself **with help** of remedy.

If the planet is afflicted then suggest the remedy for the opposite nature's planet, the planet **who** is afflicting the **planet**, and also **suggest** the remedy of the lord of the improving houses to make them strong than the afflicted **planet**.

∴ In the second case support should be there in the chart from the opposite nature planet other than the planet which is afflicted.

The solar plexus also indicate the remedial measures according to the strength of the planet in the chart. Accordingly the native gets the problem on different levels of the bodies like physical, mental, astral etc.

In the chart of those who are in a very high status in the process of evolution of the soul, they **are** less effected by the houses. Further less effected by the signs and further less effected by the combinations. This is what I understood with my limited knowledge. Here by effected, it means they don't feel any unhappiness in heavy afflictions of the respective houses, signs and the combinations of the planets.

Remedy always works, if one is able to know from which body level native is passing, in process of evolution of the soul. Disease or problems always remain in **one** body level **either** in the last body level or in the present one **or** in the next one.

Horary astrology is a branch, which gives separate result of the query and at the same time work to support or give confirmation of the natal result for the particular query. There are many **marits** and demerits of **both** the branches **but** here we **do not consider**.

To cast the horary chart there are two main systems. One is time of query in the native's mind or when he approaches to the astrologer and the second system is through the numbers.

Those who follow KP knows that there is a system to ask for a number between 1 to 249 and the querist gives the number which is in his / her mind. This number system is mainly developed from Uttarkalamrui Granth by Kalidas in which granthkar has given number system between 1 to **108** (27 constellations x 4 pada each = 108). We know that in KP system any zodiac degree is ruled by minimum of three planets 1) **Sign Lord** 2) **Star Lord** and 3) **Sub Lord**. So each constellations has nine sub lords on the base of **Vimshottari** Dasha system. So $27 \times 9 = 243$ but Rahu Sub in Sun Star and the Moon sub in Jupiter Star fall under another sign ruler so in these way another six numbers are increased and the total number is 249. Now three planets rule each number. Number given by the querist and the zodiac ruled by the number become the **Asc** for the horary chart.

In KP horary book it is mentioned that if the querist gives the number beyond 249 then without **calculating** any chart the astrologer should give a negative answer of the query.

But in this regards, my personal **experience** differs. I have experienced that **when you ask** for a number with in a given range of 1 to 249, mostly internally the querist has a prejudice towards some particulars numbers and will **not** give a number like **13** or **113** or **213** but they are biased by lucky numbers like 1, 11, 21, 51, 101, 108, 158 etc. Some times they give their birth date or age as a number. So **intension** to get the correct **number** is not fulfilled.

So personally I have started to take any number from the querist with out any limit. Suppose this number is more than 249 then divide the number by 249 and whatever quotient you arrive **at** is again multiplied by 249 and the answer will be deducted from the given number by the querist. The balance **will be** the correct number for the horary chart.

For example, suppose the given number is 123676. Now divide this number by 249, you will get the quotient 496. Now again you multiply quotient by 249 and you will get the answer 123 504. Deduct this answer from original given number 123676. The remainder balance number **will** be horary number, which in this case is 172.

If you work through this system for the horary chart, I am sure that you will **get** the better result if you have applied principles of KP.

I have been using this experiment since 1985 and getting excellent results.

Example :

Querist had asked the question regarding settlement at abroad and he has given the number 345.

Question solved on 17.05.2007 at Khar Mumbai at 19.07 hrs. The detailed chart is as under.

Nature of the native :

- 1st house sub lord Moon in 12th house as a lord of 5th house with Mars, Saturn and Sun and also aspected by Uranus and Pluto and in Trine aspect with Neptune.
- Moon in Jupiter star and Jupiter is in it's own sign in Asc as a lord of 1st and 10th with Venus lord of 3rd and 8th house.

- Jupiter as Asc and 10th lord rising in the Asc.

- Native is interested always in showmanship and by knowingly he is cheating himself only.
- Moon as a sub lord of 1st house indicate native may become speculative also and due to Jupiter star and trine with the Neptune leads him to keep more trust without any reason on any body who can psychologically praise him.

Career :

- 10th house sub lord is Mars as a lord of 2nd and 9th in 11 * house with Saturn, Sun and Moon indicates that native is interested in some kind of manufacturing industries because Mars is connected with Mars star only and 1st house sub lord Moon is connected with 12, 5 in Jupiter star indicate native is interested for business but **due** to connection of the 9*, 12* house, native has to be very careful, basically in manufacturing items as well as labour and government problems.

* **Explanation for Exaltation of Planets**

In Nirayan system for **each** and every planet becomes exalted at particular degree in the particular sign as under.

Sun	Aries	10	Degree
Moon	Taurus	03	
Mars	Capricorn	28	
Mercury	Virgo	15	
Jupiter	Cancer	05	
Venus	Pisces	27	
Saturn	Libra	20	

So far the reasons for why certain planet become exalted at particular longitude are not given in any available material. But according to my studies and understanding I have certain views for above.

In our natural zodiac Jupiter and Saturn rules 9, 10, 11 and 12* sign / houses basically they are concern with Knowledge, **Dharma**, Karma and Moksha.

Sun

Sun is the karaka for soul as well as it is Karaka for Dhanvantari (Medical) and it is in Ketu star where it becomes exalted and Ketu is a karaka for Moksha **and Ketu** is ruled by Ashwani kumar.

At Aries 10 degree sub lord is Saturn and Saturn is a Karaka for sacrifice or devotee and Sun is Karaka for Ego or Status. So that till the time native will not sacrifice his ego he can not achieve the Moksha (Ketu).

Moon:

Moon is karaka of mind and desire and its get exalted in Taurus sign (sign of materialistic) and at 3 degree Sun star is ruling. Sun is karaka of soul and at 3 degree Jupiter sub and at the beginning of Saturn sub so if native by knowledge (Gyan Jupiter) sacrifice (Saturn) the **materialistic** life and then only one's mind dissolve with the soul (Sun)

Mars:

Mars is karaka of energy and one can not restrict energy but one can use the energy in the right direction with the right control that quality is applicable here. Mars is exalted in Capricorn cardinal sign (continuation of flow or activity) and Mars is exalted at 28 degree, which is ruled by Mars own as a star lord and it indicates pure energy and 28 degree is ruled by Saturn sub again planet of control with the justifications because Saturn is the ruler of the karma sign Capricorn.

Mercury :

Mercury is karaka of analysis and thought process and it is exalted in it's own sign Virgo at 15 degree. Virgo is a Earthy sign sign of practical and Virgo 15 degree is ruled by Moon star (Hastha) and **Jupiter** sub lord.

Mind (Moon) will not take any decision without taking in to account action and reaction by available knowledge (Jupiter) and only after understanding consequences of the action, normal mind will take the decision.

That is why Mercury is exalted in Virgo at 15 degree.

Jupiter :

Jupiter is exalted in Cancer at 5 degree. Cancer is a watery sign and ruled by Moon and at 5 degree Saturn star (Pushya) and Saturn sub. Jupiter is karaka for knowledge as well as proud-ness to be dissolved by a mind (Moon) with full understanding and knowledge **also** to be directed in karma (Saturn).

At Cancer 5 degree, Saturn sub is there and one can go for only karma without any materialistic benefit because as Jupiter is a karaka of finance as well as for **Dharma** also. **Dharma** also connected with Achar acts (Saturn).

That is why Jupiter is exalted in Cancer at 5 degree

Venus :

Venus is a karaka of luxurious life, sex and Sanjeevani. Venus is exalted at 27 degree of Pisces. Pisces is a sign of sacrifice or to leave and at 27 degree Mercury star is ruling and Mercury is karaka for intellectual and understandings and at 27 degree Jupiter sub is ruling. Jupiter is a karaka for knowledge and as such any kind of luxurious life or sex or desire for long life to be left with full knowledge by convincing the intellectual then only one can get the real sanjeevani life.

That is why Venus is exalted at 27 degree of Pisces. 

Saturn :

Saturn is exalted at 20 degree of Libra. At Libra 20 degree Rahu star is ending and Jupiter star is beginning. Saturn is a karaka of Karma and Libra sign is a sign of justice and Rahu star is karaka for materialistic benefit **and** Jupiter is a karaka for knowledge. So native has to do Karma with full justifications with full knowledge without any expectation of materialistic benefit. Then only karma becomes Nishkam Karma as **said** in Bhagvad Geeta.

That is why Saturn is exalted at Libra 20 degree.

Note : From above analysis one can **find** that each every planet either exalted in Jupiter sub or Saturn Sub and as said in beginning only these two planet is ruling Dharma, Artha, Kama and Moksha.
